- Oil Painting
- Science Fiction and Fantasy Films : Marvel, DC Comics, Dystopias, The Lord of the Rings

Curious and passionate, I love exploring all aspects of design to create and experiment with fun and unique ideas. Whether it's through color, form or innovative techniques, my goal is to realize new and exciting ideas. When I am working on my projects, I always make sure I stay organized and give my best. No matter if I am collaborating with a team or working independently, I always maintain a focused and positive attitude. Experimenting, learning and perfecting ideas is what motivates me, and I am always excited to see where my creativity takes me.
